Is Carpal Tunnel or Tennis Elbow impacting your everyday life?

If you're ready to try a non-invasive treatment that has helped many become pain-free, then this study may be for you!

Because we've had such great results...

We are looking for 10 adults 18 years or older who suffer from carpal tunnel and/or tennis elbow to examine the effectiveness of a non-invasive, non-prescription treatment called EPAT. EPAT (Extracorporeal Pulse Activation Technology) is the most advanced treatment approved by the FDA; it uses pressure waves that stimulate the metabolism, enhance blood circulation and accelerate the healing process, allowing damaged tissue to regenerate and heal.

Participants will be asked to:

- Receive an EPAT session (Approx. 15 minutes) at our clinic once per week (for 5 weeks)
- Participate in a quick follow up 3 months, 6 months, and 1 year later

Participants will receive:

- 50% off (\$250 savings) for 5 EPAT sessions
- Smiles from our fun and friendly staff
- Detailed instruction on how to maximize EPAT results

BUFFALO CHIROPRACTIC CLINIC

We are looking to start our study by Thursday, June 1st, so contact Buffalo Chiropractic Clinic TODAY at 763-682-1471 and set up your screening with Dr. Tom to see if you qualify!

"I have an old injury to my wrist which gives me chronic pain. Cortisone shots help, but very short term. I tried Dr. Kuzma's Shockwave/EPAT treatments and have noticed a huge difference with only 3 sessions!" - Joseph L.
